INTRODUCTION.

THE principal object of the present Catalogue has been to give a complete list of the species of the HYMENOPTEROUS INSECTS that have been recorded as found in Great Britain, with their principal Synonyms.

It is intended for the following purposes:—

As a Complete List of the species at present known as inhabiting the British Islands.

As Labels for the Cabinet, for which purpose it has been printed in a peculiar type and only on one side of the paper.

The Collection contains almost every species in the list, and it consists of the type specimens described by the Rev. WILLIAM KIRBY, Dr. LEACH, Mr. JAMES FRANCIS STEPHENS, Mr. FRANCIS WALKER and Mr. FREDERICK SMITH.

The Catalogue has been prepared by Mr. FREDERICK SMITH, who has paid so much attention to this order of Insects.

JOHN EDWARD GRAY.

LIST

OF THE SPECIMENS OF

BRITISH ANIMALS

IN

THE COLLECTION

OF THE

BRITISH MUSEUM.

PART XIV.

NOMENCLATURE OF NEUROPTERA.

LONDON:

PRINTED BY ORDER OF THE TRUSTEES.

1853.

PRINTED BY TAYLOR AND FRANCIS,
RED LION COURT, FLEET STREET.

INTRODUCTION.

THE principal object of the present Nomenclature has been to give a complete list of the species of the NEUROPTEROUS INSECTS that have been recorded as found in the British Islands, with their principal Synonyms.

It is intended for the following purposes:—

As a Complete List of the species at present known as inhabiting the British Islands.

As Labels for the Cabinet, for which purpose it has been printed in a peculiar type and only on one side of the paper.

The Collection contains almost every species in the list, and it consists of the type specimens described by Dr. LEACH, Mr. JAMES FRANCIS STEPHENS, Mr. CURTIS, and Mr. FRANCIS WALKER.

The Nomenclature has been prepared by Mr. ADAM WHITE from Mr. WALKER'S Catalogue of the NEUROPTERA, and M. DE SELYS LONGCHAMP'S work on the EUROPEAN LIBELLULIDÆ.

JOHN EDWARD GRAY.

October, 1853.

LIST

OF THE SPECIMENS OF

BRITISH ANIMALS

IN

THE COLLECTION

OF THE

BRITISH MUSEUM.

PART XV.

NOMENCLATURE OF DIPTERA. I.

LONDON:
PRINTED BY ORDER OF THE TRUSTEES.
1853.

INTRODUCTION.

THE principal object of the present Nomenclature has been to give a complete list of the species of the DIPTEROUS INSECTS that have been recorded as found in the British Islands, with their principal Synonyms.

It is intended for the following purposes:—

As a Complete List of the species at present known as inhabiting the British Islands.

As Labels for the Cabinet, for which purpose it has been printed in a peculiar type and only on one side of the paper.

The Collection contains most of the species in the list, and it consists of the type specimens described by Dr. LEACH, Mr. JAMES FRANCIS STEPHENS, Mr. CURTIS, and Mr. FRANCIS WALKER.

The Nomenclature has been prepared by Mr. ADAM WHITE from Mr. WALKER'S two volumes on the British Diptera in the "Insecta Britannica."

The remainder of the Diptera, containing the NEMOCERA, will soon be published.

JOHN EDWARD GRAY.

December, 1853.
